REMLIFE[®]
FILE FOLDER

the folder
with a future...

Never wears out!

Permanent plastic **REMLIFE™** Folders outlast the best heavyweight folders by years!

It's true! New REMLIFE folders outlast them all! More than that—ten bright vivid colors do away with the drab, dull, dog eared world of paper folders.

Tested and tried, REMLIFE folders won't crack, tear, stain or dog-ear. The smooth, clean new look stays new year after year.

REMLIFE folders save space too. Durable 15 pt. plastic takes 40% less space than 25 pt. press-board. Savings add up.

Both letter and legal sizes are available with straight edge, popular $\frac{1}{3}$ cut tab, or a variety of other tabs. Your choice of the V fold or the 1" W expansion.

Pressure sensitive labels adhere firmly but can be easily removed with no damage to the remarkable REMLIFE folder. They stay new so you use and reuse REMLIFE folders again and again year after year with new labels after the contents are transferred. More savings.

Bright, colored REMLIFE folders please the eye and stimulate excellent work habits. The result is faster filing and fewer misfiles.

Folder COLORS include YELLOW, PINK, GREEN, VIOLET, BROWN, BLUE, TRANSLUCENT WHITE, RED, ORANGE, TAN.

Ask for the permanent, plastic REMLIFE folder by name. It's the folder with a future . . .

Never wears out!
